THOMASVILLE, N. C.

"THE CHAIR TOWN"

PREFACE

By R. M. COOKSEY,
City Manager

Lying in the very heart of the Carolina Piedmont section, Thomasville has had a phenomenal growth in the past two decades, its development being one of the outstanding examples of expansion in the entire state. Its population today is given by City Directory estimators at 14,428, the city having doubled its population with each of the past three decennial census enumerations.

GROWTH

Its growth has been coincidental with the industrial expansion of Southern States, and particularly the Piedmont in the years following the war. The development of the furniture industry from the making of chairs to the production of a complete line of household furniture might be given as the chief factor, and the increase in the number and output of hosiery mills in this section has drawn hundreds of families yearly to Thomasville.

HISTORY

The first authentic records of the city began in 1845 when a general store was set up at the cross-roads. Several families moved to the location and the North Carolina Railroad, now the Southern, was built through the village. Construction of the road had been brought through the site of the present city by John W. Thomas, then a state senator, for whom the city was named.

INDUSTRIES

The foundation of the present furniture industry was laid in 1870 when a small factory was built to engage in the manufacture of chairs, and in a small way numerous other plants sprang up in the succeeding years. In 1904 the fore-runner of the present Thomasville Chair Company, the largest single industry in the city, was founded, absorbing various other plants in the course of time. In addition to this company

PREFACE (Continued)

(Continued from Page 7)

the Standard Chair Company and Thomasville Furniture Company are among the city's leading industries, giving employment to around 3000 hands.

The making of cotton yarn in the city developed later with the organization of the present Jewel Cotton Mill, and the Amazon Cotton Mill, the latter, one of the plants of the world-known Cannon Towel Company. In 1916 the first hosiery mill was founded by A. H. Ragan, known as the Ragan Mills, Wrenn Hosiery Co., Maurice Mills, and Fremont Hosiery Company. A dozen other small plants, including a box factory and furniture plant, provide additional employment. There are also mattress factories, a concrete pipe and block plant, a flour mill, and numerous other industries, numbering, in all, 39 factories.

GOVERNMENT

The present form of city government was adopted in 1915 when the council-city manager plan was approved, and it has operated since that time with increasing satisfaction. The city has miles of paved streets and sidewalks; five modern school buildings; one of the finest water supply systems of any city in the state regardless of size; two sewerage disposal plants; a modern fire department and numerous other modern facilities, housed in a modern City Hall.

The total property valuation of the city is estimated at $18,000,000, while the assessed valuation is around $10,125,000.

SCHOOLS

In the 47 years since the first graded school was opened in 1900 followed by the first school building in 1902, the school system of the city has grown to an outlay valued at $500,000, and school enrollments increased from a small handful that year to nearly 3000 in 1947. The city has a modern high school and three graded schools for white pupils and a high school and graded school for the colored pupils, the combined number of class rooms being 71. There is also a modern high school and graded school at Mills Home with an additional 18 class rooms.

WATER SUPPLY

Credited with one of the finest water supply systems in the state, Thomasville has just increased the capacity of the system by the addi-

(Continued on Page 10)

tion of a million gallon storage tank in the center of the city where it will provide an instant supply of water for all needs of the city even though some unforeseen accident should close down the pumping station or destroy the principal feed mains for a protracted period. A pump station capable of producing more than a million gallons a day was erected in 1925 and has since been enlarged.

RAILROADS

In addition to the main line of the Southern Railroad between New York and New Orleans, the city is on the H. P. T. and D., connecting link with other railroads, while two main highways between east and west and from north to south intersect in the heart of the city.

CHURCHES

Six of the chief denominations have churches in the city—Methodist, Baptist, Presbyterian, Reformed, Lutheran and Episcopal.

OTHER CIVIC FEATURES

A modern hospital cares for the area within a radius of several miles. A well-stocked library and an active Rotary Club, Business and Professional Women's Club, Junior Chamber of Commerce, Woman's Club, and Lions Club are among other civic features.

Street Directory
—OF—
Thomasville, North Carolina

GIVING NAMES OF HOUSEHOLDERS, THE NUMBER OF OCCUPANTS IN EACH HOUSE, AND DENOTING BUSINESS PLACES

VOL. IX 1947-1948 VOL. IX

NOTE—Streets are arranged in alphabetical order. All house numbers are arranged numerically following the description and location of each street, giving the name of householder. The number in parenthesis after name denotes number of occupants in each house.

Dash (—) before name denotes that number is wanting.

(◉)—Before name denotes home-owner.

(*)—Purpose of star (*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of same,

High Point, Thomasville And Denton Railroad

"Nothing but Service to Sell"

HIGH POINT —

furniture and hosiery center of the South.

THOMASVILLE —

furniture, hosiery, miscellaneous manufacturing.

DENTON —

a small and growing town having a strong appeal for industries seeking rural locale.

The Best Things Come In Small Packages!

Through our connections the HPT&D Railroad gives this industrial part of North Carolina competitive trunk line advantages. Concentrated into a small area as an efficient "Short Line" and transporting freight only, HPT&D serves helpfully and courteously.

HPT&D offers regular schedules to all parts of the United States through the Winston-Salem Southbound, Norfolk and Western, Atlantic Coast Line, and Norfolk Southern railroads and their many connections.

Many industries are located along our tracks. Much new development is underway.

For detailed information as to industrial sites, track locations, rates, routings, schedules, etc., write or call:
